

## IR DUAL BANDPASS FILTERS

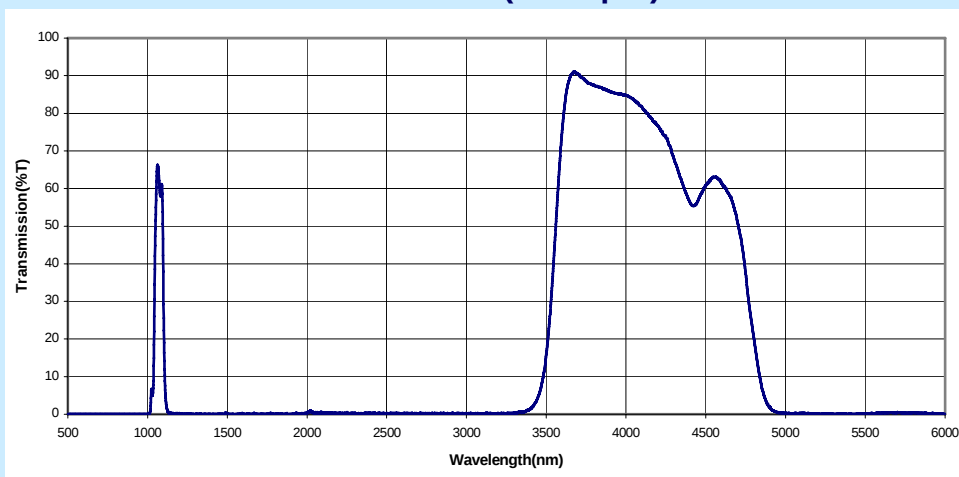

### Features:

- Precise wavelength control
- High transmittance
- Extended dynamic range
- Dense blocking
- Image quality

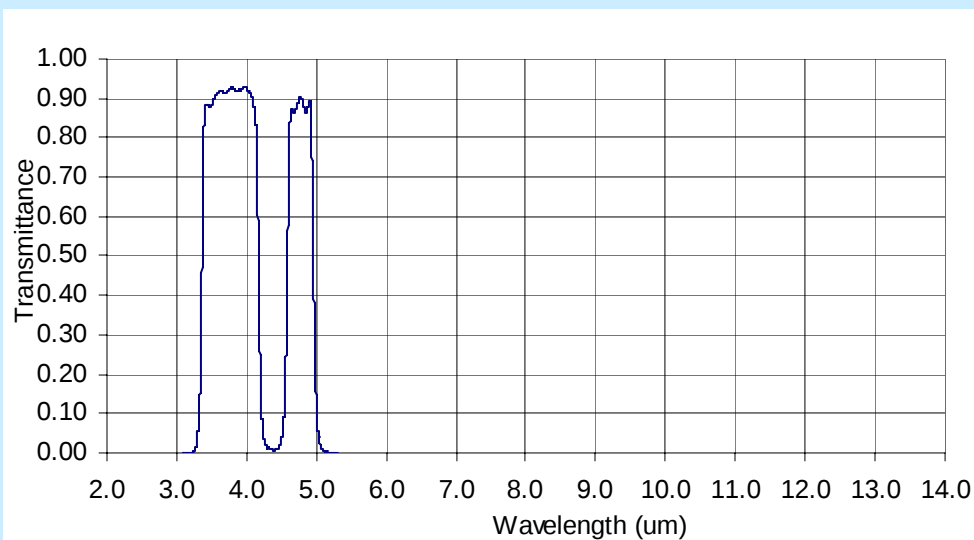

### Coated on:

- Up to 10" diameter
- Plano or curved optics
- Diamond turned optics
- Customer supplied materials

### NIR/MWIR (See Spot)

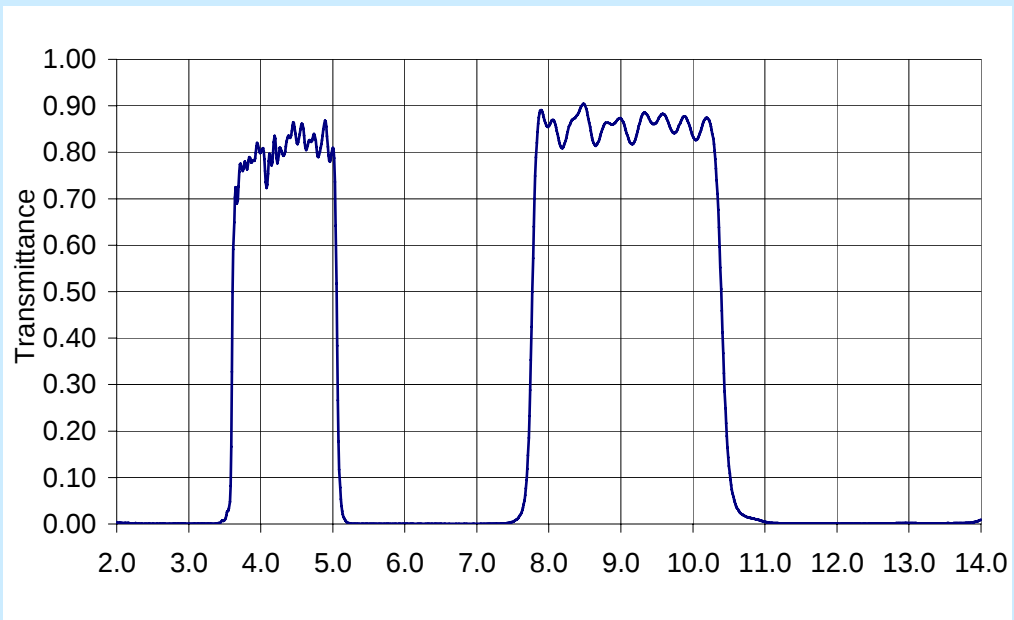

### MWIR (CO2 Notch)

(over)

### Dual Band – MW/LW

### Dual Band – LWIR
